

Zoomi Electric Bikes Monterey

The Zoomi Monterey is a 350 watt pedal-assist / throttle electric bicycle with a 36 volt, 13 aH Li-Ion battery. It features a high-quality, stylish aluminum step-through frame, Shimano Nexus 6-speed gearing, front disc / rear hub brakes, Mode front forks, and a solid helping of old-fashioned fun!

The Zoomi Monterey electric bicycle is one of the most powerful electric bicycles available in its price range. Most other bikes priced comparably only come with a 250 watt motor, and a 24 volt 10aH battery. **The Zoomi Monterey comes with a 350 Watt motor, and a lockable, removable 36 volt 13aH battery, giving this bike 30% more power and range than other comparably-priced e-bikes.**
